Graduation's on a mountaintop.
Rarely does one get a better view.
All that is in front of me is new.
Dreams fade into haze rather than stop.
Underneath are queasiness and fear
As familiar landscapes fall away.
The price of moving on is just that gray
Intensity that grips as new eyes near.
On me for just this moment all is grace:
Now I rest, and that sweet joy embrace.

In Memory

Heaven no longer waits my friend,
for they have called you home.
To take your place in its shining light,
to bask in its heavenly glow.
Your life was but a flash on earth,
taken before your time.
Our hearts are filled with sorrow now,
for we know we must say good-bye.

Your school books,
replaced by angel wings.
Your hat,
replaced by a crown.
Heaven is now your promise land,
but just one more thing before you go.
We will always remember,
the smiles you gave,
and the kindness of your heart.

The warmth of your hand,
the tears you shared.
In life you were loved by all.
Heaven no longer waits my friend,
so take care and take your leave.
Turn back not to look at us,
for now we set you free.

Fly away little angel,
fly away to heaven bound.
And take your place beside
his golden throne,
and don't you ever frown.

Even though our hearts grieve for you,
no other shall take your place.
For in times of trouble you will always
be near,
just out of reach of our embrace.
Sleep now our little cherub.
Close your eyes and drift away.
For the next time you do open them,
Heaven will no longer wait.

In Memory Of
Cassie L. Amarantes

Born: May 16, 1983

Died: August 29, 1999

Sixteen Years

I'd like the memory of me
to be a happy one,
I'd like to leave an afterglow
of smiles when life is done.
I'd like to leave an echo
whispering softly down the ways,
Of happy times and laughing
times and bright and sunny days.

I'd like the tears of those who
grieve, to dry before the sun
Of happy memories that I leave
When life is done.

Potter Funeral Home
81 Reed Road
Westport, MA 02790
(508) 636-2100

We've seen you for the final time,
We've said sincere good-byes.
We hope that you can hear our hearts,
Beat through our tears and sighs.

We're not sure where you're going.
We're glad that you came.
But rest assured we'll always
Smile at the mention of your name.

And even though next time we meet,
We'll both have gone through change.
I know that my feelings for you
Shall never rearrange.

You left at far too soon a time,
The sweet age of 16.
But we'll not soon forget you,
For we'll see you in our dreams.

And as you probably wanted it
We'll show no grief or strife.
We'll mourn your passing but
We'll celebrate your life.

THE YEAR
2001
This is the "Age of Connectivity"
and you're in it.
You are everywhere,
thanks to the Internet.
E-mail a friend in Bangalor,
shop for cool shoes at some
European e-tailer, or even
watch a web-cast concert from overseas,
and all from your desktop.
YOU ARE HERE
The world's getting smaller.
Might even feel crowded at times.
Chill. Look for signs along the road to help you find
your way in this brave new world.
and enjoy the ride.
Taylor
www.taylorpub.com

What a golden year for sports.
Michael Johnson won two gold medals in the 400 meter and 4 x 400 meter relay in the Sydney Olympics.
(Must have been the shoes.)
Multiple medals also went to Maurice Green and to Marion Jones, who took home three gold and two bronze.
She's the first woman to win five medals in one Olympics.
ONE
Tiger Woods did it again. And again. And again.
As the PGA Tour Player of the year, he placed first in tournament after tournament, including the U.S. Open, the British Open and the PGA Championship.
The golden girls of soccer settled for silver in Sydney.
Under a Shaq attack.
Shaquille O'Neal, with Kobe Bryant, shot the Lakers to victory against the Indiana Pacers in the NBA finals.
GAME SET MATCH
Lance rules. Armstrong conquered the Alps and silenced cynics, winning his second consecutive Tour de France.
His comeback from cancer makes him a double role model, to athletes and cancer patients alike.
The "Subway Series" made baseball big news.
For the first time in 44 years the New York Yankees and the New York Mets went head to head at the World Series.
New York came out on top.
(As in Yankees.)
The Williams sisters continued to take the tennis world by storm. Rivals on opposite sides of the net, they're unstoppable as partners.
Venus topped a stellar year with wins at Wimbledon and the U.S. Open.
She took the gold at the Sydney Olympics in singles, and paired with Serena to take the gold in doubles as well.
It wasn't in the stars.
The New Jersey Devils took the Stanley Cup back from the Dallas Stars after their nail-biting double overtime victory in game six.
D-FENSE!
The Baltimore Ravens extraordinary defense gave them the edge and a 34-7 win over the New York Giants in Super Bowl XXXV.
NEWSCOM

What goes around comes around.

Look behind the technology hype and you're sure to find recycled trends. Oh, the irony.

It's the 70s all over again.

Large tinted lenses make for look-at-me sunglasses and disco-era hairstyles return with "wings" and feathered bangs reminiscent of Farrah Fawcett's famous locks.

A new twist is the bright burst of hair color, maybe a leftover from the punk and glam rock resurgence last year.

REFRESH

A rhinestone belt holds up your denims? Glittery studs on your faded jeans?

Totally.

England's Prince William took a "gap year" before college, following his mother's example of service and humanitarianism.

His volunteer and environmental work in Chile shows that the man who will be king is a true prince of hearts.

For the guys, the mop top is back with the "shag" hairstyle.

The bed-head hairstyles of Ricky Martin and Kevin of the Backstreet Boys is typical of the macho look many stars like.

Leather whatever.

Leather is everywhere. Leather pants. Leather boots.

Everything else sparkles and shines.

We heard lots of wedding bells.

Two Backstreet Boys got hitched, Madonna married her Guy. Catherine Zeta-Jones wed Michael Douglas, and Jennifer and Brad tied the knot.

Caution. Heavy traffic ahead.

As in new millennium traffic. It seems like the more info there is, the harder it is to be informed. Technology promises a bright new age but it's still hard to communicate.

Some things never change.

The Pope journeyed to the Holy Land and prayed for peace, while conflicts between Israelis and Palestinians raged.

Allegedly linked to the unrest, the USS Cole was bombed off the coast of Yemen.

This year we remember with honors entertainer Steve Allen, actors Walter Matthau, Jason Robards, and Alec Guiness.

SO WHERE ARE WE?

WHAT'S NEW?

And the nation waited 36 days for the drama of the 43rd presidential election to unfold.

Another first. After court battles and recounts, Florida's 25 electoral votes were finally awarded to Texas governor George W. Bush in the closest presidential race in history. In another dramatic sequence of events, tensions between U.S. and Cuba rose over the custody battle of 6-year-old Elian Gonzalez who was finally reunited with his father and sent back to Cuba amid anti-Castro protests.

Crash. Technology and music went head to head, as 19-year-old Napster co-founder Shawn Fanning battled the music industry over copyright usage of downloaded music.

Firestone tires exploded on highways across the nation forcing one of the largest recalls in history.

Hillary Clinton stepped out of the White House and into the U.S. Senate, a first.

Television gives a crash course in life lessons.

The nation tuned in to see who would be voted out in this summer's biggest smash "Survivor".

The ultimate survivor, Richard Hatch, beat all odds in order to outlast his island mates.

ANYTHING 'ON'?

T.V. 101

In shows like "Roswell" and "Angel," to survive means getting rid of the bad guys.

They showed that we all experience feelings of alienation, but we are not alone.

In fact, putting up with siblings, family issues and struggling to "find ourselves" are common denominators for us all.

Inventions topped inventions.

This year, we saw cable lines not only enhance television but surfing speed and e-commerce as well.

Electronic organizers rock.

From the palm of your hand you can check e-mail, invest in futures or buy a present for Mom.

Oh yeah, and get organized.

The newest digital cameras have greater picture quality as well as roomier disk space,

while the next generation MP3s are smaller, faster, more portable, and provide better-than-ever sound quality.

Toyota was among the future-thinking car companies to introduce

hybrid cars.

Half -electric and half gasoline-powered, these new wheels will eventually be as easy on the pocketbook as they are on the planet.

Playstation 2 and the latest Nintendo made the virtual world more entertaining.

Performers like Hoku and Jakob Dylan of the Wallflowers emerged from the shadows of their famous parents.

Blink-182 lets their California style influence their wardrobe and music, which led them to an MTV music award for "All the Small Things."

Globalization

has had a profound effect on the style-music industry. Latin's back with a bang with the return of Carlos Santana and the rise of Enrique Inglesias along with Christina Aguilera's release of a Latin-style CD this year. And we saw Ricky Martin going global with a tour reaching as far as Austral-Asia.

On the local scene, many underground performers have been rocketed into the mainstream, as was Moby, the one-time New York DJ, with the immensely popular "Play," image is everything.

Madonna came alive (what else is new) with her new "Music," reinvigorating her original dance-music roots.

Unbelievably, this mother of two has topped the charts for some three decades now.

Her concert, performed in a London pub, was one of the most-watched events on the Internet to date.

And with MTV, VH1, Napster, and others, the faces of today's performers are seen live everywhere.

For pop princesses like Britney Spears, Christina Aguilera and Aaliyah, as well as the ubiquitous boy bands, image is as big as (maybe bigger than) their music.

For performers like the Backstreet Boys, LFO, 98° and especially *NSYNC, style is the substance of pop.

Check out their live shows.

There was something for everybody on the big screen this year.
claymation genius brought the chickens of Tweedy's farm hilariously to life as they worked up a plan to fly the coop in "Chicken Run."

"Pay It Forward" proved it's possible to change the world and it doesn't have to be a big thing. Kevin Spacey, Helen Hunt and wonderkid Haley Joel Osment inspired us all to do a favor or two or three and make this world a better place.
X-termination avoided, thanks to the X-Men.
Enlightened Professor Xavier provides a safe haven for the world's newest and most persecuted minority, a group of mutant, genetically-gifted human beings called the X-Men. Their struggle against hostile Government agencies and mutant supremacist Magneto made "X-Men" one of this summer's biggest smash hits.
